Park Road Surgery

General Practitioner (Salaried) Job summary

We are looking to recruit an enthusiastic and committed salaried GP to join our established practice serving a list size of approximately 12,500 patients.

We are flexible and would welcome applications from GPs looking for 3 to 6 sessions per week.

About us

We are a friendly, patient-focused practice, providing high-quality primary care to our local community.

As a salaried GP with us, you will deliver high quality, patient centred care while working alongside an exceptional multidisciplinary team including nurses, pharmacists, HCAs and phlebotomists, a mental health care practitioner and an experienced administration team.

We also work closely with our Primary Care network partners, our District Nurses and Health Visitors and local pharmacies.

We received a 'Good' rating in our last CQC inspection and consistently receive strong feedback from patients.

We are an approved GP training practice (and have two trainees currently in post). We value teamwork, good communication and a collaborative approach to patient care.

The role

The role focuses on delivering safe, effective, person-centred consultations while working collaboratively with a broad team of clinicians to ensure the best possible health outcomes. The postholder will contribute to the ongoing development of clinical standards, continuity of care, and service improvement across the practice.

Main duties of the job

Deliver safe, evidence based clinical care, including acute, chronic, and preventative consultations.

Undertake routine face-to-face and telephone consultations, with home visits if appropriate, and to participate in triage rotas where required.

Work efficiently with the multidisciplinary team to ensure appropriate patient allocation and reduce unnecessary GP workload.

Review and action laboratory results and clinical correspondence.

Process and review incoming hospital letters and clinical documents.

Manage acute and chronic medical conditions.

Carry out medication reviews and process complex prescription requests, supporting our pharmacy team.

Use Medicus clinical systems to maintain accurate, timely documentation and support clinical decision making.

Provide continuity of care and support complex cases.

Contribute to improved workflow by minimising unnecessary administration through effective delegation and process optimisation.

Participate in clinical meetings, MDT discussions, clinical governance, significant event reviews and other learning opportunities.

Support training and mentorship activities within the practice, including opportunities to develop as a GP trainer.

Engage in personal development and appraisal processes, with opportunities for progression into leadership roles.

Uphold the organisations values, fostering a supportive, collaborative, and inclusive culture.

Be flexible and be able to carry out some enhanced hours sessions, as required.

Person Specification:

Qualifications and experience

A fully qualified GP with current GMC registration and inclusion on the NHS Performers List.

Excellent clinical and communication skills.

Knowledge and behaviours

Understanding of primary care clinical practice and GMC standards, including use of digital clinical tools.

Have a patient centred approach, be collaborative, organised and reliable, committed to high-quality care, respectful and supportive of colleagues.

Disclosure and Barring Service Check

This post is subject to the Rehabilitation of Offenders Act (Exceptions Order) 1975 and as such it will be necessary for a submission for Disclosure to be made to the Disclosure and Barring Service (formerly known as CRB) to check for any previous criminal convictions.
